JOHNSTOWN, N. Y., July 10 .- The water which came up over the village last night has subsided generally this morning, but has left mes of desolation in every direction. The water rose fifteen feet and overflowed everything. It has now fallen about eight feet below the highest points. Ten people are thus far reported missing. The bodies of four roads by their acceptance and promulgation have been recovered. These four are all of what is known as the "commodity" rates Johnstown people. Those whose bodies are recovered are Charles Frear and two other men named Coakley and Yost, and a 14-year-schedule because of its excessively low rates. missing people were among a crowd of thirty and the commissioners' schedule establishes to fifty persons, who stood on the stone bridge the fact that the latter are from 50 to crossing the river at Perry street watching the 100 per cent higher than the commodity rising water. They seemed regardless of rates voluntarily adopted by the roads danger until the bridge gave way and they themselves. Interested men are still deterdanger until the bridge gave way and they were precipitated. The bridge was about 20 feet high and about 25 wide. It was a single arch structure, and was crossed by a street car track. The stone bridge was swept away at about 7 o'clock in the evening. Two iron bridges of the Johnstown, Fonda & Gloucester Railroad were wrecked, and seven or eight

OTHER BRIDGES WERE CARRIED AWAY. Two tanneries owned by Simon Schriber were swept away and the Schriber and Anderson dams were broken down. The water in the Cayadutta Creek began to rise at 4:36 and the stream was soon converted into a raging torrent. Of the men, women and children who were thrown into the water by the breakwere saved by means of ropes thrown to them from the shore. This morning the fire de-partment, under the direction of Chief Thompson, is engaged in the search for more bodies. The water is still very rough and dangerous for boats. The final and fatal rise in the Cayadatta was very sudden and is attributed to the effects of a cloudburst. Besides the exceping away of the bridges and the tanner-ies, there is much damage to buildings which are yet left standing. The electric light plant washed out and the town is left in total darkness for the night. All communication by wire is cut off save through the long dis-

ments were made in the presence of several officers and enlisted men. The court found Lieut. Ellsworth guilty and sentenced him to be publicly reprimanded in a general order by the Secretary of the Navy, to be suspended from rank and duty for the period of one year, and to retain his present number on the list of First Lieutentants in the United States Marine Corne during that period. and to retain his present number on the list of First Lieutentants in the United States Marine Corps during that period. These proceedings and findings were approved by Rear Admiral Gherardi, who convened the court.

Secretary Tracy is now preparing a special order on the subject, in which he will state that in view of the nature of the offenses with which Lieut. Ellsworth was charged and found guilty, the department is of the opinion that the publication in general order of the specification of such offenses, with the action of the court and of the revising authority in the case, will be to Lieut. Ellsworth a severe rebuke for his misconduct on the occasion specified, and will constitute a sufficient reprimand without further comment thereon from the navy department. As the date of the original approval of the sentence of Admiral Gherardi was April 22, 1889. Secretary Tracy will order that it take effect from that date, from which, for the period of one year Lieut. Ellsworth will be suspended from rank and duty.

Tanner Smiles.

WASHINGTON, D. C., July 10,-Commissioner Tanner's attention was called to-day to the report that his resignation had been or would be called for by the President. He would be called for by the President. He smiled and said that some people were evidently after him, and he did not propose to begin to contradict everything that was said. "Or course," he continued, "all men do not think alike, and opinions differ." Assistant Secretary Bussey, in referring to the matter, said that Mr. Tanner's resignation had not been alluded to in any shape or form at the conference between Secretary Noble, Commissioner Tanner and himself, and that only matters pertaining to business in the Pension Office were discussed.

The Situation in Hayti.

WASHINGTON, D. C., July 10 .- A dispatch was received at the Navy Department from Admiral Gherardi at Port-au Prince, saying that affairs at Hayti are quiet and that there is no fighting of moment. He also reported that there had been no change in the political situation since his last report. Legitime holds Port-au-Prince and Hippolyte remains outside of the town. Discharge of B. & O. Shop Employes-The

By Telegraph to the Post-Dispatch.

Baltimore, Md., July 10.—The operatives in the various departments of the Baltimore & Ohio shops at Mount Clare, grow more and number of employes in one shop or another and the men are perfectly well satisfied that in a very short while the Baitimore & Ohio will purchase all of its cars and locomotives, using Mount Clare only for repairing pur-poses. The latest victims of the lopping off policy are the men in the supply shop, and the entire gang, including the foreman, have terests of the Republicans at home, are mak-ing vigorous endeavors to have Mr. Bell of the rolling stock has been taken out of this shop a grand discharge is expected next Saturday. This policy has greatly stirred up the working people of the city, and they have wrought upon the political element of the directory to oppose the policy. The nonpolitical element, with President Meyer at the head, have thus far held the whip hand, but they try their best to make the discharge with as little fuss and publicity as possible. It is bound very soon to create a rumpus.

Chief Arthur's Meetings.

By Telegraph to the Post-Disparcy.

New York, July 10.—Chief P. M. Arthur has several big meetings of the Brotherhood Locomotive Engineers on hand before the next convention in the fall which is to decide whether he will be re-elected or not. One was held on Sunday in Tammany Hall, at which more than a score of divisions in this neighborhood were represented. Besides Chief Arthur, Grand Chaplain George R. Doberty was present, This meeting, like those held lately in Boston and Scranton, was called a "fellowship meeting" of a purely social character, in which the engineers meet to get better acquainted and have a good time. As a matter of fact these meetings are planned by Mr. Arthur in order to give him a chance to explain himself on certain questions and set himself right with the divisions.

BRAZIL. Ind., July 10 .- At the regular semiweekly meeting yesterday of the Miners' Relief Committee, 5.754 dependents and \$461

The demand of Germany to be intrusted with the virtual sovereignty of Samoa has now been abandoned.

At first sight the net result of the conference seems to be that Germany has yielded on every material point to the demands of the United States. When the convention itself is published, however, it will probably be found that the question has really been settled on a reasonable basis of give and take. It has been clear enough from the beginning of the conference that the original claims of Germany were not likely to be recognized in their entirety. For a long time German influence was paramount it is apt to be somewhat indifferent to the interests of other Powers. But ever since the Government of the United States began to take a direct interest in the question, and to manifest its determination not to allow American interests to be ignered, it has been pigin that Germany would find it expedient to abute something of her former pretensions. In any case we cannot but congratulate Prince Bismarck and the German Government on the concillatory spirit they have shown in the settlement of the troublesome question. It cannot be denied that the action of Germany in Samoa has on many occasions been high-handed, impolitic and inconsistent alike with

New York. July 10.—Manager Clark, Mr.
Fox's business manager, said yesterday: "We are perfectly satisfied with the result of the encounter, as we feel that the battle was fought fairly and squarely on its merits. We have no fault to find with anybody. I have nothing but the greatest admiration for Sullivan, who has certainly shown himself a wonderful man, possessed of the most extraordinary recuperative powers. There can be no doubt now that he is the best man and the greatest pugilist in the world. What Kilrain's future will be is hard to tell, and I guess he does not know himself. We have received no private advices of the shape he is in. Financially he won't be so badly off, as he gets 40 per cent of the excursion money. What will become of the championship helt I don't know. It belongs to Sullivan, but he must defend it against all comers. Under no circumstances can he give it to Jack Dempsey or anyone elise to defend or keep. If he does not want it, the trophy reverts to Mr. Fox.''

is simply a roaring farce. No better illustration of this could be found than in the recent Sullivan-Kilrain mill. Every State in the Uhion, except Louisiana, where some doubt as to the fact seems to exist, has a law against prize-fighting. When this fight was announced the hue and cry were raised against it by press, pulpit and public. The protest grew in strength as the time for the event approached. The authorities of the States were called upon to enforce the law and prevent the brutal exhibition." The Governors of the States in which it was thought the fight might take place issued high-sounding proclamations, demanding of the local authorities that they arrest the principals and backers wherever they might attempt to pitch the ring. The militia was got in readiness for a sudden call, and there was the usual talk of Sheriff's interference and of the great preparations made to prevent the contest. The sports laughed in their sleeves and went calmly ahead with their plans. Trains were chartered, tickets were publicly sold and public receptions were held. The local authorities were evaded, bribed or defled and the mill took place according to programme. The principals, backers and spectators returned publicly to New Orleans and their homes with boisterous demonstrations. No arrests have been

London, July 10. -There was a great hor gathered at the Lyceum Theater last night to her portrayal of Lena Despard, the character monopolized in England. The distinguished actress was under considerable disadvantage being very nervous over the failure of l Damale to learn his "lines." So helpless did he seem to be when the time for raising the curtain came that for half an hour, while the curtain came that for half am hour, while the restiess gallery outside stamped and whistled it was seriously debated whether to substitute "Camille" or announce that Mme. Bernhardt was too ill to play Finally she went on, with an excuse for he indisposition, which the audience did not accept over graciously. The performance wa not in any way successful. The play, which is bad enough in English, is stupid, rambling and inconsequential beyond belief in the French arrangement, and it is not even passable vehicle for the display of Bernhardt' powers. Her death scene, to be sire, was powers. Her death scene, to be syre, was striking and unique—perhaps as forcible in its way as any other she does, but many had gone away by that time, and those who staid were too tired to be thrilled. Luckily after this week stronger plays, including "La Tosca" and "Theodora," will be put on, and the actress will escape into really strong roles. Last night's performance pleased no-body, unless possibly Mrs. Bernard-Beere was in the house.

She Alleges That She Was Violently Thrown Out of a Barber Shop.

On the docket in Justice Spaulding's court the case of the "State of Missouri vs. J. P. Thomas." was docketed for not tried, however, but was continued, the defendant, J. P. Thomas, stating that he had other important iaw cases to attend to. The charge against Mr. Thomas was brought by Miss Minte Slater, the pretty mulatto cashler girl in the Lindell Hotel barber-shop and she charges that Thomas used violence upon her person, and threw her out of the barber-shop, squeezing her ribs badiy in doing so, so that she suffered much pain therefrom. The thowing out of Miss Slater and the grave injury inflicted upon her ribs is the outcome of complications in the business affairs of the barber-shop, which grew more and more complicated as time wore on. At first Thomas and Smith, both colored, were joint proprietors of the shop. Later on, for reasons best known to himself, Thomas transferred his interest in the establishment to his wife, and acted as her agent. The lease for the shop still stood in Thomas' name. A short time ago the proprietors of the help still stood in Thomas' name. A short time ago the proprietors of the hele not liking the way matters were run canceled the lease and informed Thomas and Smith that they would have to give up the shop. Here is where the case of assault and battery occurred according to Miss Slater, who states that Thomas seeing how matters stood thought it best to get his hands on the money. So he demanded it of her and upon her refusal seized her in his arms and threw her out of the shop, taking out of the cash drawer some \$70. Smith swore out a warrant for Thomas' arrest for taking the money, but it would not hold, as Thomas was an agent of one of the proprietors. Then Miss Mintie Slater swore out the assault and battery warrant and the case duly set. All the barbers in the shop was have been notified to appear as witness in the case. not tried, however, but was continued, defendant, J. P. Thomas, stating that he

THE DIRECTORS ELECTED.

Managers of the St. Louis United Elevator The St. Louis United Elevator Co., the outgrowth of the consolidation of the grain ele-vators, held a meeting last night and selected, rather than elected, a peard of directors of thirteen. The company has not yet been incorporated and therefore it cannot officially elect either directors or officers, but the choice of directors was the object of last night's meeting and the result was entirely satisfactory. At first those who were present anticipated that there would be some discussion over the character of the and though not entirely unexpected, it was rather an agreeable surprise when the propo-sition to select eight men efficially connected with the elevators and five men who are with the clevators and five men who are simply stockholders, making a board of thirteen, was made and unanimously carried. The question then before the meeting was who should be the directors, and it was soon settled without any wrangle or dispute. Those now officially connected with the elevators, who will be members of the new board, are D. P. Slattery, J. B. M. Keblor, George W. Updike, Webb M. Samuel, B. P. Tansey, Hugh Rogers, John R. Monberger, and Samuel Hoffman. The five who are only stockholders are John Wall, Redmond Cleary, Nathan Cole, Sid R. Francis and James Y. Lockwood. When the new company has been incorporated these gentlemen will be officially confirmed and officers will be elected. It is assured that Webb M. Samuel will be president and general manager, B. Slack, secretary, and Oharles Cunningham, assistant secretary. Judge Madill is now preparing the papers and within the next few days the company will be incorporated. The elections will then occur and from that sime forward all the elevator business of the city will be done by the St. Louis United Klevator Co.

It was expected that there would be some definite indications to-day as to what action the Chicago Board of Trade would take in reference to sending out its quotations, but so far as could be learned early nothing had been done. Its Board of Directors met Tuesday and considered the subject very fully, but passed a resolution placing injunctions of sepassed a resolution placing injunctions of secrety on its different members. Under this all that was given out was that the Board of Trade would appeal to the courts to-day, and that on the action of the courts in reply to the appeal would depend whether the quotations would be furnished to the public, or whether the collection of them would be discontinued. Dispatches received from there on 'Change this morning were to the effect that no action had been taken at all, except to authorize the Board of Trade to (petition for a modification of the decree of the courts which allow the Board of trade to)send out its quotations on the plan adopted by the governors of the New York Exchange. THE COTTON CROP.

Report of the Statistician of the Departme of Agriculture. WASHINGTON, D. C., July 10 .- The June report of the statistician of the Department of Agriculture shows an improvement in the condition of cotton during the past month The early planted areas are well advanced. That which was planted in May and that which had not germinated before the season of drought is late and small. There was frost nearly throughout the cotton belt on the list of May and the first of June which prevented germination already long delayed and arrested the growth of plants. There is general complaint of the effects of a dry and cool season continuing through May and into June in delaying germinations and growth and favoring the prevalence of lice. West of the Mississippi, especially in Texas, the season is considered a wet one, and the June rains continuing till the day of report began at an earlier date than in the Atlantic States. Their effect has been to improve the stand which was very defective and advance the growth of the plant. The prevalence of rains left the fields somewhat grassy on the first of July, a condition which a few days of sunshibe since May have remedied. Except on plantations having too large an area for the number of plows available, the crop was generally kept clean during the period of drought. The wide variation in date et germination has had the effect to make the crop latter by a week or two than that of 1888, and the stand is not so good. Some plants came up in April, and some late in June. The per centages of condition by States are as follows: Virginia, 33; North Carollian, 85; South Carollian, 85; Tenda, 90; Alabama, 87; Mississippi, 91; Louisian, 92; Texas, 90; Arkanas, 85; Tennessee, 82; general average, 87.6. See next SUNDAY'S POST-DISPATCH. REV. ANDERSON'S TRIAL.

Preliminary Hearing on the Charges
Against the Baptist Devine. Late this afternoon the case against Rev. Simon P. Anderson for forgery came up for preliminary hearing before Judge Campbell in the Court of Criminal Correction. Anderson it will be remembered, was before his fall, the paster of the Central Baptist Church, colored. About two months ago he hurridly left the city and was gone but a few hurridiy left the city and was gone but a few days when it was discovered that by fraudulent use of the name of Mr. J. M. M. Stokes, the pastor had drawn almost \$1,500 from the bank and appropriated it to his own use. Anderson was captured in California and his prosecution has occasioned a rupture in his flock, the members of the congregation taking sides as to the guilt of the accused. To-day the courtroom had every appearance of a campmenting tabernacle, the brethren and sisters assembling in full force to hear the evidence. The case was far down on the dockst, but the

faithful flock, nothing discouraged, remained through the whole proceedings.

barrel, and often is of great assistance in derecting the aim. To fire a dark pistol at
dark object in a dark night is to reduce the
chances of hitting the mark to a minimum. If
the section of the order relating to bined barrels were rescinded, it would be far better.
But if it is not, I can tell how to cheaply
and effectually change a nickelplated revolver to a blue barrel.
Any chemist can remove the nickel at a small
cost. Then wrap a rag, or better still a quantity of cotton batting, around the pistol, soat
the envelope carefully in fine oil and set is
afire. Do not let it burn too rapidly and when
it is consumed lay the weapon aside for a few
hours. It should then be carefully wiped and
the nickel will be replaced by a fine blue."

LIVE STOCK.

CATTLE—The market was again active and again cattle moved to the scales with considerable freedom. Offerings were quite large, the bulk of which consisted of range cattle; these found disposal at prices only a shade lower. There was quite a run of native shipping steers, and these likewise found disposal, but at a decline of about 10c per 100 lbs. Taken all in all the market was active and prices withal satisfactory. A clearance was effected. The market closed steady.

A Black Spar Boom—Stocks Sold and Prices
Obtained.

The mining market was generally dull, but several stocks showed unusual activity and sold freely.

Black Spar was in strong demand and the sales were larger than they have been for several months. At the opening the stereotyped bid of 2 was made and 3,500 shares sold on the street at 2½, but almost immediately the price rose to 3. At this figure the transfers were very large, aggregating 8,600 shares, and this was bid for more. Offers of the stock at 3½ were freely made, but were not accepted.

Pretty Girls in Ireland.

From the New York Mail and Express. It is the fashion this season to visit Ireland, if only for a few days. The Green Isle has too long been neglected by American tourists, and while not in any way seeking to compete with the talented writers of guide books, I desire to say that it is as lovely a spot as can be found. There are a few good hotels and scores of poor ones. The tariff of charges at the first named is outrageously high, and at the others the service is so bad that they can only be recommended to one's worst enemies. But aside from the hotels, the railroads, the omnibusses and packets are all that could be wished for, and the silrops of Belfast and Dublin are quite as good as many to be found in London. It Furnishes an Amusing Sequel in the Police Court To-Day.

The St. James Hotel figured quite promi-nently in a plain case of disturbing the peace in the First District Police Court this morning. It was a Fourth of July racket and rous in its details. It appears that on the evening of the Fourth the patriotic guests of the St. James assembled to a goodly number on the veranda at the second floor and celebrated with fireworks and explosives. The ladies, too, came from their rooms, and in the glare of the red light the scene was a pretty one. Attracted by the display, a large crowd soon gathered, and the merriment continued until a late hour. One person, as it seems, did not enjoy the fun. That one was Mike Canavan. Mike is a "cabby," and on that particular evening he persisted in making a stand directly in front of the St. James door. Now, Mike has a peculiar team. His horses stood like artillery animals and only pricked up their ears and snorted with delight as the monster 10-inch cannon crackers boomed over their heads. The little fizzles did not annoy them in the least. A few feet above them a soft white hand would hold a pack of crackers at arms length, another hand would light the short fuse, and as the explosives went snapping. "fizzing" and sputtering in the street below, the fair enthusiast would utter quick little gurgles and shrieks of delight. And the horses stood their ground. Finally, a carelessly directed pack fell beneath their feet and exploided with wild abandon. Then Mike was mad. The horses didn't complain in the least, but Mike did. In his rich Irish brogue he railed, swore and stormed, his vocal explosion only bringing down a fresh supply of "cracking" enthusiasm. Human nature could stand it no longer, and in an instant a heavy monkey wrench went spinning toward the crowded veranda, striking a railing and bounding off to the pavement below. Manager John W. Hawley picked it up and carried it into the office. Mike followed and made a scene in the corridor before he secured possession of his weapon. At this juncture Officer Grass put in an appearance and arrested both Mike and Mr. Hawley, counter complaints of disturbing the peace being made in the same breath. Judge Cady heard their stories this morning and discharged the defendants, glving them as hort lectu the evening of the Fourth the patriotic guests of the St. James assembled to a goodly num-

A BRIDGE BUILDERS' TRUST. nation to Keep Prices at the Max

ST. JOSEPH, Mo., July 10 .- A few days ago the County Surveyor advertised for bids for the building of eighteen bridges. The bids were opened last Saturday and though about twenty in number there was little difference. The County Court was at once struck with the idea that a combination was in force and promptly rejected all the bids. It has since been learned that there is a trust among the bridge builders for the purpose of keeping prices at the maximum. The territory embraced by the trust is Southern Iowa and Nebraska, Northern Kansas and Northwest Missouri. There is hardly a bridge builder of any note in this territory who does not belong to the trust. Regular meetings are held and a scale of prices agreed upon. A bond is given by each member providing a sovere penalty for any violations of the agree. been learned that there is a trust among the

Win. H. Blake spoke in favor of the road, which, he said, would give workingmen suburban homes and an opportunity to leave the unhealthy downtown tenements. The crowd hissed the speaker, who announced his determination to remain there ail night if necessary to secure a hearing.

The Committee of the Whole then adjourned and the Council was called to order.

Mr. Commot refered an amendment changing the route so as to run over Twenty-third street to Washington avenue, thence over Washington and Jefferson avenues. The Brogdway, who was drowned Sunday by falling from a skiff opposite the foot of Angelrodt amended the bill so as to make the company

use coke or anthracite coal. Mr. Cole endeavored to strike out the section allowing a double fare during certain hours, but failed. An amendment making the company pay \$5,000 into the City Treasury on the acceptance of the bill was added. Mr. Ganahl wanted the bill laid over till next meeting for further consideration. Quite a debate resulted and the motion was lost by the votes of Messrs. Bensieck, Comfort, Hoolan, Horton, Meler, Rohan, Sloan and Vogel. The bill was then ordered to engrossment, Messrs. Metcalf, Cole, Nelson and Ganahl voting against it after stating their reasons.

The lack of funds in the street department is explained by Street Commissioner Burnet, who said to-day: "The temporary appropriation was made to cover the space between the close of the fiscal year and the passage of the general appropriation bill, but the amount was not made large enough to answer the demands of the occasion. The advent of a long hot spell and the general sprinkling of the streets are the direct cause of the somewhat large force of men we have had on the streets. It was absolutely necessary that the streets, and especially the gutters, should be cleaned and CLEANED FROMFILY.

During the winter, when systematic cleaning is practically impossible, large quantities of such rubbish as is bound to accumulate in a big city, fills up to a certain event the gutters and sewer entrances. Then when this mass of stuff is alternately wet by the sprinklers and dried by the summer sun, a dangerous rot sets in and before very long a bad smell is perceptible, and it is a universally acknowledged fact that rotting rubbish, emiting a bad doer, is in conflict with all sanitary rules. It was for the purpose of removing as thoroughly and as promptly as possible this mass of disease-breeding material that I put on the arter force, which consumed prematurely the appropriation made firee months ago. These laborers are all of the class of people who cannot wait for their money as they live from day to day on their wages and have no other source of revenue whatever. As to the sprinkling men their shortage is due to an oversight."

Comptroller Stevenson said: "I am not surprised that the Street Department is short of money, but I must say shall think they should have calculated a little closer and put on less men. However that may be I urged the members of the House last night to hurry that bill along and stop their squabbling, and told them just how maters would be."

The estimate of the shortage as made up this morning by the Street Department is 599.98

TO HEAL ALL BLOOD CONTAGION.

"Thus it was the Swift Specific Brought unto the world its blessing; Over land and over water Went the priest and Uanita; Bringing to the people tidings

Of a salut ary agent That would purge them of all poison." BITRACT FROM POEM OF "UANITA."

Of relief from blood contagion-

Eight years ago a cancer came on my lower lip. I had it cut out while it was yet small, and it healed up apparently, but soon broke out again, and commenced eating very rapidly. It took off my under ill from one side to the other, and down to my chin. had it treated by burning, and got so weak that I did not think that I could stand it much longer. Af-ter much suffering I discarded all other treatment, ter much suffering l discarded all other treatment, and began taking Swift's Specific, and the cancer soon began to heal, and in a short time it was completely healed and I was entirely well. It is now over three years since I got well, and there has been no sign of any return of the disease. I know it was cancer, and I know it was cancer, and I know it was cured alone by S. S. S. E. V. FERRAND, Ruston, La.

S. S. S. cured me of malignant sore throat and mouth, caused by impure blood. The trouble ex-tended down to my left lung, which was very sore. The doctors practiced on me for three years without relief, when I left them and took S. S. S. Four bel-BEN RILEY, Meridian, Miss. Treatise on Blood and Skin Diseases mailed free. Sanford's Cinger on the Rampage

The old owl is justly indignant at the persistency with which mercenary dealers urge upon would-be purchasers of SANFORD's GINGER chesp, worthless, and often dangerous gingers as "our own make," ford's," or "the same, etc.," not in the interest of health but for a few cents extra profit. No respectable druggist or grocar is ever guilty of such practices. Avoid all others. SANDORD'S GINGER has earned by years of meritorious service in the preservation of health and alleviation of human suffering the right to insist that those who call for it shall be given it, without any attempt on the part of dealers to ferce upon purchasers inferior gingers. Based on intrinsic worth. SANDORD's GINGER, eempounded of imported singer, choice aromatics, and medicinal French brandy, is the chespest ginger in the world. Ask for ford's," or "the same, etc.," not in the interest of
